

GLADIATOR™

R A N G E

Simplicity of operation
Very easy to set-up & use with simple, reliable push button controls

Powerscreen Hybrid
Electrically driven with no costly engine aftertreatment

Robust & reliable
Industry proven crushing & screening technology

Modular units
All Gladiator Machines are designed for maximum versatility and to work in a number of different setups as easily as possible.

The Powerscreen® Gladiator™ range is a new range of wheeled crushing & screening plant that is reliable, easy to operate and move and environmentally friendly.

The Gladiator range combines the highly efficient crushing chambers and screenboxes that Powerscreen is famed for, with the simplicity and flexibility of wheeled equipment.

The range is fully electrically driven using tried and tested Powerscreen® Hybrid™ technology, making it an ideal choice in locations with strict environmental regulations.

THE GLADIATOR RANGE INCLUDES:

Gladiator PT400
Jaw Crusher

Gladiator TP320SR
Closed-circuit Impact Crusher

Gladiator MT1150
Open-circuit Cone Crusher

Gladiator MT1150SR
Closed-circuit Cone Crusher

Gladiator MT1300
Open Circuit Cone Crusher

Gladiator H6203
Horizontal Screen

Gladiator H8203
Horizontal Screen

GLADIATOR™ PT400

The Gladiator PT400 is a new electrically driven, wheeled jaw crusher. It features the tried-and-tested JW42 jaw crushing chamber and is chassis mounted on wheels meaning ease of movement and set-up.

The Gladiator PT400 is fully electrically driven using tried and tested Powerscreen® Hybrid™ technology, making it an ideal choice in locations with strict environmental regulations.

APPLICATIONS

AGGREGATE	RECYCLING	MINING
<ul style="list-style-type: none"> Sand & gravel Blasted rock River rock 	<ul style="list-style-type: none"> Top Soil C&D waste Composed materials Wood By-Products Overburden Foundry Waste 	<ul style="list-style-type: none"> Processed ores Processed minerals

TECHNICAL HIGHLIGHTS

RELIABLE & EASY TO OPERATE

- Simple, reliable push button controls
- Vibrating grizzly feeder removes fines before crushing
- Aggressive crushing action by renowned JW42 jaw chamber
- Hydraulic adjustments at ground level

ROAD-LEGAL & EASY TO MOVE

- Made locally in USA, with lowest possible weight for ease of movement
- Triple axle chassis with 12 wheels, spring suspension and air brakes as standard

ENVIRONMENTALLY FRIENDLY

- Electrically driven by either external genset or 3 phase mains connection
- No costly engine aftertreatment reducing expensive engine maintenance costs

TECHNICAL SPECIFICATION

1 FEEDER Vibrating grizzly feeder Length: 20' (6096 mm) Width: 42" (1067mm) Bolted bar grizzly Length: 60" (1524 mm) x 4" (102 mm) average opening	4 CHASSIS & TIRES Straight beam chassis Spring suspension & air brakes Kingpin, under-frame mounted triple axle Tires: 12 x 295/75 R22.5

DIMENSIONS

WEIGHT

Total Weight: 107,200lbs (48,625kg)
Axle Load: 64,000lbs (29,030kg)
King Pin Load: 43,200lbs (19,595kg) +5,600 (2,540kg) for magnet & stand

*Please note: It is the dealer's responsibility to ensure the plant is road legal in their region and the guards comply to the customers requirements.

GLADIATOR™ TP320SR

The Gladiator TP320SR is a new hybrid-electric drive, wheeled, closed-circuit impact crusher.

This portable closed circuit crushing and screening plant combines the tried and tested Trakpactor 320 impact crusher and Chieftain 1700 2 deck inclined screenbox for recirculation.

The crusher is hydraulic clutch driven direct from a 350hp Scania diesel engine. All other components are electrically driven from the 150kw generator.

The Gladiator TP320SR, with its large screenbox, wide conveyors and low maintenance electric drive components, promises to be a highly productive, high value plant.

APPLICATIONS

AGGREGATE

Sand & gravel
Blasted rock
River rock

RECYCLING

Top Soil
C&D Waste
Composed materials
Wood By-Products
Overburden
Foundry Waste

MINING

Processed ores
Processed minerals

TECHNICAL HIGHLIGHTS

HIGH RELIABILITY, HIGH OUTPUT

- High performance impact chamber combined with the iconic Chieftain 1700 2-deck screenbox giving reliable crushing and screening with one plant
- Vibrating grizzly feeder removes fines before crushing
- Aggressive crushing action by renowned Trakpactor 320 impact chamber
- Simple, reliable push button controls with additional starters as standard

ROAD-LEGAL & EASY TO MOVE

- Made locally in USA, with lowest possible weight for ease of movement
- Triple axle chassis with 12 wheels, spring suspension and air brakes ensuring a smooth journey

ENVIRONMENTALLY FRIENDLY

- Largely electrically driven by the onboard 150 kW generator
- Economical to operate
- Fully electric plant available

TECHNICAL SPECIFICATION

1 FEEDER

Vibrating grizzly feeder
Length: 14' 3" (4.34m)
Width: 3' 6" (1.07m)
7" Stepped 2 deck grizzly
Length: 84" (2135mm)

2 CRUSHER

Feed opening: 44.5" x 31.5"
(1130mm x 800mm)
Operating Speed: TBC rpm
Power: TBC hp (TBC kW)

3 BYPASS CHUTE AND UNDERCRUSHER CONVEYOR

Width: 42" (1070mm)
Automatic hydraulic tail lift for transport

4 FINES CONVEYOR

Width: 42" (1070mm)
Discharge Height: 8' 7" (2.6m)

5 SCREENBOX

16' x 5' (4.8m x 1.5m) 2 deck incline screen
Speed: 1050rpm
Highly aggressive screen drive

6 CHASSIS & TIRES

Spring suspension & air brakes
Kingpin, under-frame mounted triple axle
Tires: 12 x 295/75 R22.5

7 POWER UNIT

Tier 4F: Scania 350hp
Onboard Genset: 150kW
460V
3 Phase
60Hz
Option for Tier 3 engine

DIMENSIONS

WEIGHT

	Kingpin Weights	Axle Weights
Base Plant	39,958lbs (18,125kg)	54,048lbs (24,516kg)
+ Dirt Conveyor	467lbs (212kg)	2,128lbs (965kg)

*Please note: It is the dealer's responsibility to ensure the plant is road legal in their region and the guards comply to the customers requirements.

GLADIATOR™ MT1150

The Gladiator MT1150 is a new electrically driven, wheeled open circuit cone crusher. It features the renowned Terex (r) TC1150 cone chamber and is chassis mounted on wheels meaning ease of movement and quick set up times.

The Gladiator MT1150 is fully electrically driven using renowned Powerscreen Hybrid technology, which makes it an ideal solution in areas where strict environmental regulations are in place.

APPLICATIONS

AGGREGATE

Sand & gravel
Blasted rock
River rock

RECYCLING

Top Soil
C&D Waste
Composed materials
Wood by-products
Overburden
Foundry Waste

MINING

Processed ores
Processed minerals

TECHNICAL HIGHLIGHTS

AGGRESSIVE CRUSHING PERFORMANCE

- Renowned Terex® TC1150 cone chamber gives high productivity and excellent product shaping
- 300 hp (225 kW), 1800 rpm crusher motor and drive are mounted with the crusher on a rubber isolated frame
- Crusher controlled by the Terex ACE6, allowing the operator to achieve maximum performance from their crusher, but also improve their crushing plant's reliability & uptime.

EXCELLENT MAINTENANCE ACCESS

- Conveniently located grease banks and ground access cone lubrication module
- Service platforms around crusher, elevated observation platform
- Side-mounted lockable box for convenient tool storage

ROAD-LEGAL & EASY TO MOVE

- Made locally in USA, with lowest possible weight for ease of movement
- Tandem axle chassis with 8 wheels and spring suspension ensuring a smooth journey

ENVIRONMENTALLY FRIENDLY

- Electrically driven with onboard generator
- No costly engine aftertreatment reducing expensive engine maintenance costs

TECHNICAL SPECIFICATION

1 HOPPER

Oversize quick-release cone feed hopper with gated overflow chute
Manufactured from 1/4" (6mm) mild steel

2 CRUSHER

Maximum feed size – medium coarse 7.5" (190 mm)
Power: 300hp (225 kW)
Standard Mantle & Medium Coarse Concave
Short throw chamber as standard, long throw chamber available as an option.

3 UNDERCRUSHER CONVEYOR

Width: 42" (1067 mm)
Length: 34' 6" (10515mm)
Motor: 15hp (11 kW) electric motor
Discharge Height: TBC

4 CHASSIS & TIRES

Heavy Duty 25,000lb Leaf Spring Suspension
(8) 11R x 22.5 tires

5 POWER UNITS

Electrically driven

POWER

Cone	300hp (224kW)
Discharge Conveyor	15hp (11kW)

WEIGHT

Total Weight: 68,530lbs (31,085kg)
Axle Load: 38,000lbs (17,237kg)
King Pin Load: 30,700lbs (13,925kg)

Short throw chamber as standard, long throw chamber available as an option.

*Please note: It is the dealer's responsibility to ensure the plant is road legal in their region and the guards comply to the customers requirements.

GLADIATOR™ MT1150SR

The Powerscreen Gladiator MT1150SR is a wheeled, electric drive closed circuit cone crushing /screening plant.

This closed circuit crushing and screening plant incorporates the tried and tested TC1150 cone crushing chamber coupled with the 20' x 6' H6203 Horizontal screenbox for recirculation while being chassis mounted on wheels means ease of movement and quick set up times.

The Gladiator MT1150SR is fully electrically driven using renowned Powerscreen Hybrid technology, which makes it an ideal solution in areas where strict environmental regulations are in place.

GLADIATOR™ H6203

The Gladiator H6203 is a new, electrically driven, wheeled horizontal screening plant which offers excellent screening and blending capabilities

It features the renowned Terex Cedarapids 20' x 6' heavy duty, triple shaft oval stroke screenbox which is chassis mounted on wheels meaning ease of movement and quick set up.

The Gladiator H6203 is a rugged and heavy-duty screening system, with many patented and patent-pending features. The unit is fully electrically driven using tried and tested Powerscreen® Hybrid™ technology, making it an ideal choice in locations with strict environmental regulations.

APPLICATIONS

AGGREGATE

Sand & gravel
Blasted rock
River rock

RECYCLING

Top Soil
C&D Waste
